

AMRISHAA S

Aspiring IoT and Embedded Systems Enthusiast

vijayarathivijayarathi@gmail.com | +91 9488670119 | www.linkedin.com/in/amrisha05

PROFESSIONAL SUMMARY

Detail-oriented Embedded Systems and IoT Engineering student with a foundation in PLC fundamentals, sensor interfacing, and embedded system concepts. Proficient in embedded firmware understanding, system validation, and debugging methodologies. Knowledgeable in industrial automation basics, communication protocols, and IoT architectures. Demonstrates strong analytical thinking, documentation skills, and team collaboration abilities. Actively seeking an Embedded Systems and IoT Engineer role in Proautonics to contribute reliable, scalable, and automation-driven embedded solutions.

EDUCATION

B.E in ECE at Nadar Saraswathi College of Engineering and Technology, Theni.

CGPA : 8.14[6th Semester]

12th Grade : 81% at T.M.H.N.U.Vidhyalaya.Mat.Hr.Sec.School,Theni.

10th Grade : 77% at N.S.Girls.Hr.Sec.School,Theni.

TECHNICAL SKILLS

Programming Languages: C (Strong), Embedded C (Beginner), C++ (Beginner).

Tools & Software: Arduino IDE, MicroPython, Wokwi Simulator and Tinkercad.

Protocols: UART, I2C, SPI (Basic understanding)

PROJECTS

Hackathon Participant – **Three Slit Ring Patch Antenna** at M.Kumarasamy College of Engineering, Karur.

Embedded SAR Monitoring System (ESP32)

- Built a signal analysis system using potentiometer, buzzer, and NeoPixel.
- Implemented Automated alert triggers and uploaded SAR data to cloud platforms.

INTERNSHIP

Completed 1 Month Internship on IoT and Embedded Systems and Worked on IoT circuits, sensor modules, and microcontroller programming at Notasco Technologies India Pvt Ltd,Tirumangalam.

CERTIFICATION

Attended a Workshop on **Foundation of Industrial Automations using Siemens PLC** at MEPCO Schlenk Engineering College, Sivakasi.

NPTEL Course - “Introduction to Internet of Things” (77%, Elite Silver).

NPTEL Course - “Cloud Computing” (55%).

ACHIEVEMENTS

Appreciated with the **Master Minds of Intern Award** for the Project IoT Driven SAR Monitoring at NSCET, Theni.
