

AMRISHAA S

Aspiring IoT and Embedded Systems Enthusiast

vijayarathivijayarathi@gmail.com | +91 9488670119 | www.linkedin.com/in/amrishaa05

PROFESSIONAL SUMMARY

Detail-oriented Embedded Systems Engineering graduate with hands-on experience in developing modular components, writing maintainable code, and enhancing embedded application functionality. Proficient in C programming with exposure to Python and MicroPython, experienced in understanding existing codebases, debugging, and suggesting improvements. Motivated to work independently and contribute to reusable, optimized, and performance-oriented software components in a client-driven environment..

EDUCATION

B.E in ECE at Nadar Saraswathi College of Engineering and Technology, Theni.

CGPA : 8.14[6th Semester]

12th Grade : 81% at T.M.H.N.U.Vidhyalaya.Mat.Hr.Sec.School,Theni.

10th Grade : 77% at N.S.Girls.Hr.Sec.School,Theni.

TECHNICAL SKILLS

Programming Languages: C (Strong), Embedded C (Beginner), Python (Basic).

Tools & Software: Arduino IDE, MicroPython, Wokwi Simulator and Tinkercad.

Protocols: UART, I2C, SPI (Basic understanding)

Core Areas: Embedded Systems, IoT, Sensor Interfacing, Cloud Integration

PROJECTS

Hackathon Participant – **Three Slit Ring Patch Antenna** at M.Kumarasamy College of Engineering, Karur.
Embedded SAR Monitoring System (ESP32)

- Built a signal analysis system using potentiometer, buzzer, and NeoPixel.
- Implemented Automated alert triggers and uploaded SAR data to cloud platforms.

INTERNSHIP

Completed 1 Month Internship on IoT and Embedded Systems and Worked on IoT circuits, sensor modules, and microcontroller programming at Notasco Technologies India Pvt Ltd,Tirumangalam.

CERTIFICATIONS

Attended a Workshop on Foundation of Industrial Automations using Siemens PLC at MEPCO Schlenk Engineering College, Sivakasi.

NPTEL Course - “Introduction to Internet of Things” (77%, Elite Silver).

NPTEL Course - “Cloud Computing” (55%).

ACHIEVEMENTS

Appreciated with the **Master Minds of Intern Award** for the Project IoT Driven SAR Monitoring at NSCET, Theni
